Introduction

Today’s global challenges can not be solved by yesterday’s international institutions. To resolve the world’s most pressing problems, which touch all corners of the globe, we must adapt our global governance approaches to be more representative and thus more effective by encouraging and enabling the key affected countries to take an active role in generating solutions.

All the world’s countries and all the world’s leading development institutions have galvanized unprecedented effort for building a better world. We can not treat issues such as financial crises or energy security or extreme poverty in isolation. The implications of this interconnectedness are profound. Our strategies must be comprehensive.

A National Conference to deliberate on the Contemporary Global Economic Issues and Development Experience of Himachal Pradesh will be organized by Department of Economics, Himachal Pradesh University, Shimla during 13-14 February, 2015 in collaboration with the Economic Association of Himachal Pradesh and N. S. C. B. M. Govt. College, Hamirpur (H.P.). About 150 delegates, including a number of distinguished scholars, policy makers and other professionals are expected to participate in the conference.

The national conference aims at bringing together researchers, academia, policy makers, civil society organizations, bankers, industry representatives and other scholars to a national forum for the dissemination of original research results, new ideas and practical experiences which concentrate on both theory and empirics. The conference will solicit both theoretical and empirical research papers associated with conference themes.

Conference Sub-themes

The conference on “Contemporary Global Economic Issues” would cover the following themes and sub-themes:

A. Contemporary Global Economic Issues
   a) Financial Crisis and Revival
   b) Poverty, Inequality and Inclusive Growth
