The Objective

In India there are hundreds of private colleges and institutions which have come up across the country offering a number of courses in various streams like engineering, medical, business management and many more. This rapid pace of growth has brought to the fore compelling issue of effective management of the educational programs so as to better prepare our youngsters for the fast evolving competitive environment.

There are institutes who are focusing their energies on overall quality of education and making their students more employable so that they can make meaningful contribution towards making India a true superpower in the coming years.

We would like to recognize the achievement of some of these institutions who have contributed significantly towards the growth of the education sector in India in the recent times for their betterment of Work in future.
